Fax (918) 962-2367

Email: ruralwater14@hotmail.com

Dear Valued Customer,

Rural Water Dist. 14 is needing your help updating some of our records. EPA along with Oklahoma DEQ are requiring information on the water service line that runs from the meter to your house. If you know what type of pipes you have running to your house, we can update the information and you should not receive another one of these letters. This letter can be mailed back with the information on it, you can email it to us, or you can call the office at 918-962-3421 and we would be happy to take the information from you. For your convenience we have put a copy of this form on our website ([www.lefloreruralwater14.com](http://www.lefloreruralwater14.com)) for you to fill out and email back to us. It can be found under the Forms & Reports Tab.

Water Line Material (Example: PVC, Copper, Ect.)

Size of Line if Known

and Approx. Date Installed
